MODULES:

The modules/subjects you need register for in your first year. Each module has a module code that is linked to certain module outcomes.

Every module is indicated with a code for easy referencing

Psychology modules start with PSYC.

The first number of the code indicates the year level (1 = 1st year) and the second number indicated the semester (2 = 2nd semester).

The complete list of modules that you need to complete to graduate is in your Programme (see next slide)

Module outcomes

In order to pass a module, you need to master the outcomes. You can find all the module outcomes at the end of the yearbook.

Pages 183-190

YEAR LEVEL 1 First somester Module code Type ALDA/E111# BMAN111 12 KCOM112 PSYC111 12 **TMBP111** 12 Select ONE ATSN111 FREB111 GERB111 Total 60 1st semester YEAR LEVEL 1 Second semester Module code Type ALDA/E122# **BMAN121** PSYC121 12 TMBP122 Select ONE ATSN121 FREB121 GERB121 Total 2nd semester Total Year 120 Level 1

Credits (Cr): Weight of each module. To successfully obtain your degree you need to obtain 384 credits at the end of your three years. This is done by passing modules.

It also indicates the average amount of study hours required to master the content. 1 credit = 10 hours thus 12 credits equals 120 study hours.

Module type: Code H, X or A

H - indicates all your majors

X - modules essential for your degree but not a major

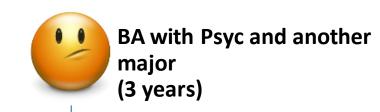

A - code given for additional modules

You have to make a choice here – either ATSN/FREB/GERB.
See the yearbook for more information.
