ONLINE COURSE

*Course starts March 4, 2027*

## COURSE DETAILS

This Short Learning Programme (SLP) prepares prospective PhD candidates for their research journey. Participants will gain insight into NuMIQ research programmes, build a support network with peers, and **develop a focused research proposal**. The course covers essential skills such as research methodology, ethical research design, and the use of digital tools for research.

Participants will learn to analyse literature, identify key healthcare research problems, and apply evidence-based solutions. By the end of the programme, they will have a well-developed research proposal, clear scientific writing skills, and the confidence to present their study concept to experts and peers.

## COURSE FEE

**R5 500**

*Financing Option Available with Mobicred*

## ADMISSION REQUIREMENTS

- Post Graduate Study (NQF 8/9)
- Master’s degree in Health Sciences or related fields.
- Completed a master’s degree (prior knowledge of research methodology).
- Skills in computer software required for successful research, such as EndNote, Word, PPT, etc. If not in place, then a pre-course on computer literacy is suggested.
